The Marketing Program

A successful business group have taken the best parts from all available marketing programs and combined it with a great product. . . Travel and Vacations.

Clubfreedom has designed a simple, but effective Compensation Plan which requires advancement through only four levels in each system.

Feeder System

- ✓ Level 1
- ✓ Level 2
- ✓ Level 3
- ✓ Qualified - Entry into Main System

Main System

- ✓ Reservation
- ✓ Planner
- ✓ Stanby
- ✓ Traveller - Generates \$6,000

This program has been designed to allow people with limited resources to commence with US\$150 into a 'Feeder' System which produces the funds (US\$1000) Capital required for entry into the Main System.

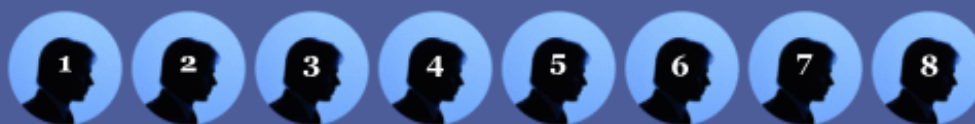

This is a revolutionary revolving matrix system as opposed to traditional matrices. With this system the sophisticated software will enter members on the bottom level from left to right and then push them from the bottom to the top, the faster the board is filled, the faster you receive your commissions.

This requires a team effort of everyone referring at least 2 people to qualify each position to move through the feeder board and then when you enter the main board and each subsequent main board you need ANY of 2 people/positions from your downline family tree following you to qualify each person/position to reach Traveller position on each main board.

Here is how the system works. . .

You Enter The Feeder System in one of the available positions in Level 1

Level 1

You are 1 of the 8 Positions

These are filled from the combined efforts of everyone on your board.

Level 2

You are 1 of the 4 Positions

As soon as the 8 level 1 positions are filled you move up to the next level.
These are filled from the combined efforts of everyone on your board.

Level 3

You are 1 of the 2 Positions

As soon as the 8 level 1 positions are filled you move up to the next level.
These are filled from the combined efforts of everyone on your board.

Qualified Level

You are 1 step away from entering the main system

As soon as the 8 level 1 positions are filled you enter the Main System.

***The Main System works on exactly the same principal
as the Feeder, except each level has a different name
and the rewards this time are Paid to You!***

We have systems in place to benefit each of our valued members to achieve Traveller Status in the fastest possible time

**Freebee System
Follow The Leader System
Revolving System
Jump Over System**

These systems are in place to help you and your team achieve success

Freebees

To qualify and reach the Traveller position on each and any Travel Board a Marketing Consultant needs two qualifying sales and our freebee system is in place to help your success.

What is a freebee? A Freebee is a sale that is attributed to you in order to help qualify you to become a Traveller.

There are two types of freebees in our Clubfreedom Travel Program. . .

Temporary Freebee

If a Consultant on YOUR Travel Board generates more than two sales the extra sales are placed in the nearest position on YOUR board and allocated to THEIR immediate downline Consultants who have not qualified, to help them Qualify from the feeder program into the main Travel Board. This type of freebee is temporary it only remains with you for one cycle. It will not follow you for any subsequent cycles. Thus, you will still have to generate additional sales if you wish to continue successfully in the Clubfreedom travel Program.

Corporate freebee

This is a freebee that is generated through Clubfreedom corporate marketing efforts. For example, if an individual responds and joins from our extensive Global Networking Lead Lists, they will enter the program as a Corporate Referral, and become a freebee to a Marketing Consultant. They will then become that Marketing Consultants permanent referral. WOW! Now you have a permanent referral to Qualify you for life.

Why do we give freebees?

To aid your success in becoming a Global Traveller. This will give you confidence to successfully promote Clubfreedom Travel to everyone. You will market the opportunity to more people. Enjoy The Journey!

Who can get a freebee?

Any Independent Marketing Consultant active in our program who has not qualified with his second sale is eligible to receive a freebee. The system will allocate freebees on a Travel Board where the closest vacant position is available.

If for some reason there is no Marketing Consultant that has one sale; the freebee will go to a Travel Consultant with no sales. No Marketing Consultant can receive more than one freebee per cycle.

Freebees are a luxury in our Travel Program, they are not guaranteed. If you receive one, Congratulations! However, keep on marketing and generating sales of Travel Packages.

Follow the Leader System

As a Marketing Consultant, whenever a person joins your sales team from your personal web site, they are forever linked to you. Each time they enter the Travel Program they are linked to you and will follow you over and over again. Hence the follow the Leader System

The Revolving System

The revolving system was developed to help every Marketing Consultant to attain the Traveller Position and enjoy fantastic Global Vacations in the quickest possible time.

Becoming a Traveller

Becoming a Global Traveller is the goal of all those marketing the Clubfreedom Travel Program. The most common way Marketing Consultants will reach Traveller status is by marketing the Clubfreedom Travel Program, generating subsequent sales, and moving up the Travel Board from Reservation to Planner to Standby to Traveller advancing to the top. This is how most Marketing Consultants make it to the top.

Clubfreedom

<http://www.clubfreedom.biz>

There are other ways one can become a Traveller. A Marketing Consultant can jump to the Traveller position from the Planner position if they have made enough sales to qualify, and the Standby Position above it has not Qualified with enough sales. A Planner with two sales will jump over a Standby with only one or no sales. A Marketing Consultant in the Planner position is now able to jump over the Standby Position and go straight to Traveller.

Consultants in the Reservation Position can jump from the bottom all the way to the top. If you are one of the Marketing Consultants that have diligently marketed the Clubfreedom Travel Program from the moment you entered the Program and have generated two sales to qualify immediately, you will be able to bypass the Planner and Standby position and go straight to Traveller if they have not qualified with two sales each.

The third method of becoming a Traveller is rare but does happen. It is what we call forced to the top. This happens when the Standby position has not generated its sales and technically is not eligible to go to the Traveller position, yet the Travel Board is ready for expansion due mostly to the marketing efforts of those in the Reservation position. If there are no Planners that are eligible to jump over the Standby position because they have not been successful in generating sales, and Reservation Positions can jump, the marketing team must expand, and the Board must split. Therefore the system has no choice but to promote the Planner or Standby to the Traveller position. This is rare but it does happen.

Balanced Split

As you advance from Reservation to Planner to Standby to Traveller you will notice a change in your marketing team at every position. This is due to the marketing teams expansion and subsequent Travel Board splits. You will find members of your previous marketing team are no longer with you. They are now on new Travel Boards successfully marketing to the Traveller position.

Often times those who split away from you are the Marketing Consultants that referred you or the Marketing Consultants that were referred by you. This is because every time you move up a position there are half as many spaces to fill. In the Reservation position there are 8 positions, the Planner position only 4, the Standby position just 2, and finally at the Traveller position there can only be 1.

How does the system determine who goes where? The system through various mathematic equations splits the positions according to how it determines equally balanced Travel Boards. To the Marketing Consultants this may appear random, however it is structured within the algorithms of the system. As the sophisticated software program determines where the Marketing Consultants are placed, this allows the system to remain fair without any human intervention.

[Feeder Program](#)

The Feeder Program is designed to allow Marketing Consultants to enter the Travel Program for only \$150.00. Everyone enters from the feeder program.

When you exit the feeder Board you will receive a Marketing commission of \$1000.00 which is your entrance onto the main Travel Board at the Reservation Level.

[The Follow the Leader Applies](#)

When you join Clubfreedom as a Marketing Consultant, the follow the leader system ensures your sales in the feeder program will benefit you in the main Travel Program. As you encourage and mentor your Marketing Consultants, to keep generating sales the way you have, they will become your sales once again in the Main Travel Program.

Once you reach Traveller and cycle out in the main Travel Program you will receive a marketing commission in two parts:

- **Part 1**
Each user name (Position) receives a once only US\$825.00 Vacation Voucher upon completion of the first cycle from a main board
- **Part 2**
Each completion of a cycle from a main board a user name (position) receives a marketing commission of \$6000.00 that will be deposited within 7 days to your private virtual ecashwallet Account where you can load funds to your Clubfreedom Travel Card or Transfer funds to any bank account in the world.
